ethics is the moral principle act of conducting oneself appropriately the codes of ethics guiding institutions are unique but the bottom line of each one of them is to reduce if not eliminate harm to mankind in dr musahs health services delivery and ethical implications he presented ethical approaches by several institutions such as health care organizations colleges and international agencies he broadly presented a review of ethical theories and utilized the findings of current research especially in the area of ethical implication in clinical practice and research approach and provided guidelines for health care providers to evaluate their practices critically

in addition to providing foundational information about ethical codes and legal statues this new text advocates for counseling personnel to view ethical issues as challenges for personal and professional growth written in an accessible concise and easy to read style this book endeavors to broaden the traditional focus of ethical study to include topics that students and practicing clinicians will find consistent with their own personal strivings and professional needs while covering the traditional core percepts of professional ethics in considerable detail confidentiality informed consent boundaries and the use of power and competency and professional responsibility it also advocates for counseling personnel to view ethical issues as challenges for personal and professional growth and it includes a number of critical topics that counselors and therapists face or will face in daily practice these include organizational ethics virtue ethics and an expanded view of multicultural ethics with a focus on community values as well as on religious and spiritual issues this new book includes a special chapter in the appendix that emphasizes ways in which counselors and therapists can grow and achieve excellence in their personal and professional lives unique and essential coverage of organizational ethics oe is addressed making readers aware of how organizational dynamics can exert such powerful influence on ethical decision making ch 4 10 14 unique coverage of the ethical considerations involving spiritual and religious issues as well as the use of alternative interventions in counseling and psychotherapy are covered including the common lawsuits brought against counselors and therapists using spiritual and alternative interventions ch 3 a unique section in the appendix describes the psychological and philosophical basis of ethical decision making for readers who want and need a more in depth discussion

much has changed in warfare in recent years with america now dominant on the international scene and terrorism the new enemy in light of these changes the need for moral grounding in military actions is a more pressing concern than ever when it was originally published moral issues in military decision making reflected the concerns posed by nuclear stalemate and the lessons of vietnam in that highly praised work anthony hartle outlined the essential elements of the professional military ethic created for american military forces

in this new edition he reexamines the moral foundations for america s military leadership in the post 9 11 era considering world affairs since the first edition the gulf war bosnia afghanistan iraq 9 11 and the emergence of the united states as an unrivaled military power hartle explains how these events have raised ethical issues that differ dramatically from those of the cold war by the war on terrorism homeland defense asymmetric warfare the proliferation of american military interventions and the un s role in peacekeeping operations using meticulously analyzed case studies twice as many as in the first edition he considers such moral dilemmas as torture challenging superior officers use of overwhelming force and responding to fire in the presence of civilian shields in this revision hartle examines further the status of professional military ethics in light of current affairs changes in the articulation of military values and recent research in a new chapter on human rights he relates moral principles directly to values embedded in the constitution and argues that overwhelming american military power cannot succeed unless it is accompanied by the moral force of the values it seeks to protect difficulties of applying conventional laws of war and human rights doctrine in military operations hartle convincingly shows that national security is as much about the preservation of moral principles as it is about the protection of america s citizens and borders his book demonstrates that the american military must continue to observe those principles in order to be effective in its primary mission

master s thesis from the year 2018 in the subject art architecture history of construction grade distinction queen s university belfast language english abstract the purpose of the study is to provide effectively managed constraints by defining constraints that prevent their targets and thus to increase the profitability of firms identifying and removing constraints from bottleneck activities help to reduce uncertainties in construction processes and increases the transparency of project management various continuous improvement ci strategies have been developed and applied to improve manufacturing system performance this paper studies the combination of two distinct strategies lean manufacturing lm and theory of constraint s toc for improving manufacturing system performance the research includes reviews of these two methodologies and the implementation process involved in each strategy examination of the possibilities to improve manufacturing system performance through integration of these two strategies the effectiveness of the integrated approach along with an examination of different factors recommendations and presentation of best possible management practices for the application of this integrated approach in an organization there are attempts to achieve multiple projects with common shared resources the work can be challenging managers might find themselves on project overload with continual resource shortages and difficulty in determining the most important tasks the focus of the research is on the elimination of non value added activities through an application of a management philosophy that identifies and eliminates the waste from each step in the production throughout the value stream a comparative analysis is carried out through reviews and studies regarding lean process and toc application to determine the manager s potential benefits like reduced production lead time and lesser work in process inventory
